

NO NEW COAL PLANTS

“Coal cleaning” action at Bondi Beach

Join activists from the no new coal campaign in this action at Bondi beach. We intend to do a coal cleaning demonstration to show our opposition to the government's attempts to build two new coal fired power stations and show that there is no such thing as “clean coal!”

What to bring

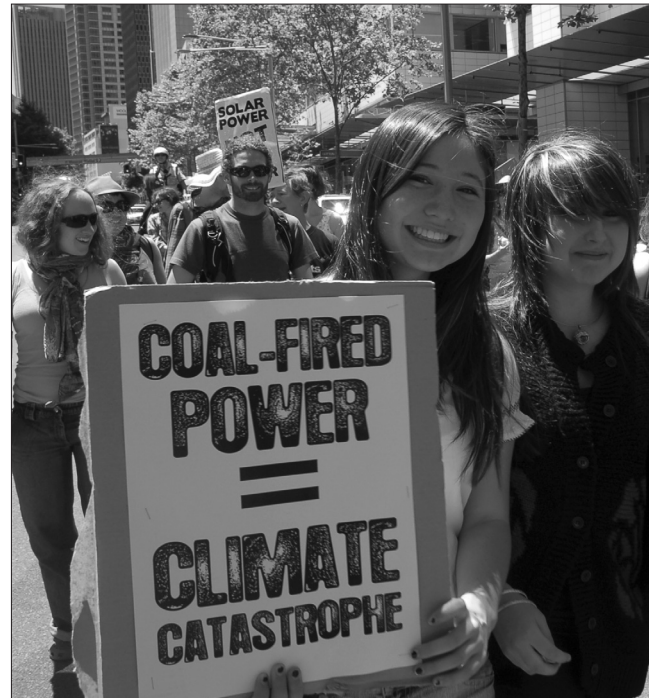

- Your own bucket and brush
- white clothing to wear (with the more black marks over them the better so we can get the message across that there is no such thing as clean coal). You can buy white disposable overalls for about \$10 at a hardware store.
- All your friends

10am Saturday January 30
Bondi Beach

Please RSVP to Terry on 450ppm@gmail.com or 0418 859 211 so we can judge what number of participants to expect
